- Initial membership commitment of 4 months is required, after that membership renews month to month
- During the first 4 months of membership a member may move up to a more expensive tier of membership but may not change to a less expensive tier of membership. This change will require signing a new membership agreement.
- After 4 months of membership a member may change to any other tier at any time but will be required to sign a new membership contract including a new 4 month membership commitment. Under this circumstance- and no others- a pro rated refund for the remainder of the current month's membership may be applied to the first month membership fee under the new contract.
- Membership may not be transferred to any other person or entity at any time for any reason. The benefits of Membership will inure to the Member only during the active term of Membership.
- Membership does not include: access to facilities outside of regular business hours for treatments; special appointment setting or scheduling; guarantees of appointment times and/or dates; guarantee that particular clinicians will be available to administer services; guarantee of specific results from any treatments; or any warranties for services.
- Included membership benefits that are recurring (monthly, quarterly, biannually) do not accrue and cannot be stacked or combined together
- Company has the right to change these terms and conditions at any time for any reason at its discretion, including services and discounts offered. Notice of change of terms will be provided to each Member within sixty (60) days of any changes made. Membership will continue in full force and effect regardless of any changes to the terms and conditions contained herein.
- Company reserves the right to change, add, or remove services and/or products available at its facilities and does not guarantee any particular service, treatment, or product will be available to Members or other clients.

This account will be charged monthly on the day of the month membership was initiated, or the first business day following this date.
- The member is responsible for ensuring that the provided debit or credit card on file remains active and maintains the proper funds/open balance to cover the costs of the monthly Membership fees and for providing an updated payment method if the existing payment method is rendered unable to cover Membership fees for any reason.
- If EFT payment is declined or not honored for any monthly Membership charge, then the Company reserves the right to accelerate the unpaid Membership dues and demand payment in full for all pending monthly charges remaining in the Membership term. A minimum charge of either \$20.00, or if a lesser amount is required by state law, the maximum allowed by state law, will be added for all failed payments; this charge is subject to change at Company's discretion

Once written notice to cancel membership has been received by The Company any scheduled autodraft within the upcoming 30 days will be completed, and thereafter no further drafts for membership dues will take place.
- If a member cancels prior to completion of 120 days of a new membership contract they will be charged for the remaining unpaid months of their 4 month membership term, as well as for any services provided in the previous 30 days (total charges will be the difference between the non member rate and the member rate- paid or comped- for any services)
